ACCESS BANK COMMISSIONS ULTRA MODERN DATA RECOVERY SITE

Mr. Kameel Kajogbade Adebayo (ED, Operations & IT) cutting the tape to commission the ultra modern data recovery site. With him are Mr. Calleb Osei – Head, Financial Control and Mrs. Angela Okugo – Group Head, Channel Services.

In line with its brand promise to provide customers with speedy service delivered in a secured manner, officials of Access Bank Ghana have commissioned an ultra modern data recovery site in the Ashanti Region.

Commissioning the project, the Executive Director of Operations & Information Technology at Access Bank Ghana, Mr. Kameel Kajogbade Adebayo mentioned that this flagship project will improve the bank's business continuity measures, which is geared towards its sustainable banking agenda and attainment of certification based on international best practice.

Valued at over US\$1Million, the data recovery site is expected to protect and secure customer information. It will also guarantee that the Bank's operations are not interrupted should there be any eventuality such as fire, flood or any disaster.

Access Bank has over the past 6 years invested heavily in its products, technology and channel services to offer convenient and secured banking services to all its stakeholders.

Press Release

Recently, the Bank unveiled a new cheque scanning platform that provides total cheque management solutions for Corporate and SME customers. Retail customers also benefit from flagship 24 hour multi-channel contact centre which provides all round support for customers and other stakeholders, giving them premium service that is unparalleled in the industry.
